MONEY SITUATION IS DISCERNIBLE

Its Repressive Influence on Stock Market Affects Current of Prices.

CALL MONEY MARKET STIFF 33

Report of Controller of Currency Had Its Weight on Market.

NEW YORK, December 16,—The repressive influence of the money situation was discernible again to-day in the action of the stock market. The call money market was stiff. Notwithstanding the substant'ell recuperation effected in the New York banking position, as exhibited in the weekly bank statement of Saturday, the banking authorities were evidently proceeding to-day with the work of building up their reserve strength. Attention was given to-day to the annual report of the controller of the currency, in which the distinctive part played by panic amongst bankers themselves in precipitating the crisis is dwelt upon. The conclusion reached, in effect, by this government official seems to be that the present banking reserve system was broken down and practically discredited by the events of October and November. The spirit of distrust, which prompted the withdrawal of posits from central reserve and reactive by the smaller banks of the county seems, in fact to be slow in passing. The principal weakness in the day's stock market was among stocks associated with the metal industries. As prices started higher and then made some final recovery the day's extreme declines were partly neutralized. Bonds were irregular, Total sales, par value, \$1.716.00. United States bonds were inchanged on call. Total sales stocks to-day \$60.500 shares. NEW YORK, December 16,-The re-

You have sufficient income now to support yourself and your Wife or Mother; but at your death your income will cease.
